

SUPPLEMENTARY MATERIAL ON THE CD

The CD contains, in addition to the PDF file for this proceedings volume, some material to supplement some of the articles. In some cases there are additional photographs or maps. In others, I have judged that a higher-resolution graphic of a map would be significantly more legible than the printed version. Australian Ken Grimes has provided PDF files of some of the papers referred to in an article and also a couple of nice color educational posters.—Bill Mixon, AMCS Editor
